

Judge Robert D. Drain

JUNE 4, 2009

US Bankruptcy Court Case 05-44481

One Bowling Green

New York N.Y. 10004

Judge Drain:

THE LAST 5 YRS OF MY Career were with Delphi,  
THE FIRST 35 WERE WITH General Motors, OR  
87%. My Contributions to The Retirement Plan  
didn't go down when Delphi split off. I have lost  
life insurance and health care benefits and I  
really do not believe that my pension income should  
be looked at any differently than Delphi hourly  
retirees or those that were able to remain at GM.  
It would seem a priority of exiting bankruptcy  
would be a fully funded pension trust or Assumption  
by GM of the remaining pension liability.

Thank you for your attention
